--	--

**Country:** Honduras  
Ref-N °: 2011 65 984

### INTERNATIONAL PUBLIC TENDER - PRE-QUALIFICATION

Ref.: "International public tender for the Consultancy Services for implementing the Project: Strengthening the National System of Protected Areas of Honduras - SINAPH (Life Web)".

**Executing Entity:** National Institute of Forest Conservation and Development, Protected Areas and Wildlife (ICF).

**Funding Agency:** Official German Financial Cooperation, through KfW.

**Objective of the Program:** The Project "Strengthening the SINAPH" aims to improve the effectiveness of the management of coastal marine protected areas of the project portfolio, through the following measures: i) Update the Planning Instruments of the Coastal Marine Protected Areas (MCPA); ii) To put the basis for the management, monitoring and evaluation of the MCPAs; iii) Training to co-managers in financial planning and administration; iv) Implementation of the Management Plans of the MCPAs and v) Carry out the monitoring and evaluation of the management effectiveness of the MCPAs. The project will be executed under the form of payment by results.

**Required Consulting Services:** The Consulting Firm will provide advisory services and own inputs to the Executing Entity Project (EEP), in relation to operational planning, conceptualization processes, as well as technical, methodological, administrative, financial assistance, monitoring and follow-up of tasks related to the Project; ensuring the application of KFW contracting standards contributing to the achievement the objectives and expected results.

The planned Consulting Services must be carried out by a consulting team integrated by:

- A permanent long-term consultant with international/regional experience in conservation and management of natural resources, wide knowledge in methodologies of evaluation on the effectiveness in management of marine-coastal protected areas and the implementation of protected areas management programs or plans. In addition, it must have demonstrated ability to work with public entities
- National / international short-term support consultancies.
- Specific consultancies for the supervision of infrastructure measures.

The consulting firm must ensure efficient management services, logistic, technical support and quality control (*backstopping*).

The consulting team must have an excellent command of Spanish and English language.

This prequalification will be executed based on the "**Guidelines for the hiring of consultants within the framework of Official Financial Cooperation with member countries**", dated August 2016, which can be found on the following website:

(<https://www.kfw-entwicklungsbank.de/PDF/Download-Center/PDF-Dokumente-Richtlinien/Consulting-S.pdf>)

Services are expected to be awarded to an independent and qualified international consulting firm or Consortium, who will have to guarantee (condition) that the proposed team of consultants includes experts or companies with local experience, preferably in Honduras, and experts or companies with international experience with proven capacities in the conservation and sustainable management of natural resources in protected areas and methodologies for evaluating the effectiveness of management of marine-coastal protected areas. **The minimum turnover of the consulting company applicant (joint with its partners) must be 800.000 Euros** (annual calculated from the average value of the last three years).
